Juneau (only): 907-463-7180

This online HAZWOPER course is specifically designed for workers who are involved in clean-up operations, voluntary clean-up operations, emergency response operations, and storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites. Topics include protection against hazardous chemicals, elimination of hazardous chemicals, safety of workers and the environment and Occupational Safety & Health Administration (OSHA) regulations. This course covers topics included in 29 CFR 1910.120.

Topics Covered:

- Regulation Overview
- Site Characterization
- Toxicology
- Hazard Recognition
- Hazard & Safety Analysis
- Hazardous Chemical Awareness
- Radiological Hazards
- Respiratory Protection
- Personal Protective Equipment
- Site Control
- Decontamination
- Medical Surveillance
- Air Monitoring

- Confined Space Entry
- Emergency Procedures
- Materials Sampling

About The Users

- HAZWOPER 40 Hour is required for workers that perform activities that expose or potentially expose them to hazardous substances

- Leads to employment at such places as Mines and Oil Fields

- Having HAZWOPER training not just ensures your safety (and your coworkers', too) at the workplace, it also boosts your employability and salary minimum

Upon successful completion of this course, you will be able to print your certificate. In addition, you will also receive a *Certificate of Completion* from the Vocational Training & Resource Center (VTRC).

You can take this course from home, at work, or at the VTRC facility if you don't have access to a computer and the Internet (**NOTE:** use of computers at the VTRC is first come, first serve basis). However, no matter where you complete this course, you will have the instructor's support and distance delivery assistance.

ALL courses offered at the VTRC are open to the general public. For enrollment or for more information regarding this online course or any other training, please contact the VTRC.
